Along with providing an affordable housing option, including home rental and ownership opportunities, one of our goals is to create a pleasant neighborhood environment that you are proud to call home. To help achieve this, we have designed a number of rules and regulations, or as we like to call them – Community Standards (“Standards”) – that serve as guidelines for the behavior of our residents and their guests, and the upkeep of your homes and the property. Our Standards are intended to maintain consistency and fairness among all of our residents and preserve our community in a way that will make you feel good about living here.

These Standards are deemed attached to, incorporated into, and made a part of your Lease, even if the Lease is amended from time to time, and are effective as of the date they are provided to you, even if you refuse to sign and acknowledge receipt.

STANDARDS

1. **THE STANDARDS.** Except as expressly modified by these Standards, all terms and conditions of the Lease remain unchanged, and the provisions of the Lease are applicable to the fullest extent consistent with these Standards. If a conflict between the terms of these Standards and the Lease exists, the terms of these Standards shall control the matters specifically governed by these Standards. Any breach of the terms of these Standards shall constitute a breach of the Lease to the same extent and with the same remedies to Owner as provided in the Lease or otherwise available at law or equity.
2. **Definitions.** Unless otherwise stated in these Standards, the Definitions contained in the Lease shall apply to these Standards.
3. **COMPLIANCE WITH STANDARDS.**
 - (a) **Compliance.** In addition to the personal copy provided to Resident, a copy of the Standards will be posted (or otherwise available) in the Community Manager’s office when available. All Resident Parties must comply with the Standards and do so in a manner that does not unreasonably disturb nearby neighbors, the community as a whole, or constitute a breach of peace.
 - (b) **Owner’s Right of Self-Help.** If Resident fails to timely perform any of his/her duties under the Standards, Owner shall have the right (but not the obligation), to perform such duty on behalf and at the expense of Resident without prior notice to Resident, and all sums expended or expenses incurred by Owner in performing such duty (including, without limitation, any lawful hourly labor charges that Owner may impose from time to time) shall be deemed to be Additional Rent under the Lease and shall be immediately due and payable by Resident upon demand by Owner.
4. **OCCUPANCY.**

Subject to the availability of Homes or Homesites:

 - (a) Any person applying for admittance as a Resident in the Community who is 18 years of age or older must first fill out an Application for Residency, provide all requested information and documentation, be interviewed by the Community Manager, and submit to and pass the applicant screening process which includes verification of income and a criminal background check. All prospective residents must be approved by the Owner and must sign the Lease, applicable Addendums, and the Standards prior to taking possession of a Home currently in the Community and/or Homesite or moving a Home into the Community. Except as expressly provided by applicable Law, no one other than those persons executing the Lease, applicable Addendums, and these Standards shall be allowed to reside in the Community.
 - (b) The purchase of a Resident’s Home by anyone who has not filled out an Application for Residency, provided all requested

information and documentation, submitted to an interview with the Community Manager, submitted to and passed the applicant screening process, and executed a Lease, applicable Addendums, and the Standards shall not constitute permission or right for the purchaser(s) to reside within the Community. An executed Lease, applicable Addendums, and these Standards, as well as a completed and approved Application for Residency, and successful completion of the applicant screening process, must be received by the Community Manager prior to the: (i) arrival of the Resident's Home in the Community; (ii) transfer of title when the Home is already in the Community; or (iii) taking of possession of a Home in the Community. Any purchaser who fails to follow the requirements of this paragraph, fails or is unable to cure the defects in his/her Application for Residency, or fails the credit and background check, will immediately vacate from the Community upon written notice from the Community Manager.

- (c) Owner reserves the right to: (1) refuse to accept further Rent and terminate the Lease of anyone who fails to comply with these Standards; and (2) refuse rental to any applicant who fails the credit or background check.
- (d) Each Occupant of a Home who is 18 years of age or older must fill out an Application for Residency, provide all requested information and documentation, be interviewed by the Community Manager, and pass a credit and background check in order to be approved for residency by Owner. Written approval of the Community Manager is required as to any change in the name or number of persons in the Home.
- (e) Upon request by the Community Manager, each Resident and Occupant of a Home shall provide documentation verifying the ages of all Residents and Occupants of the Home and the failure to comply is a violation of these Standards, and the Resident, Occupant, and/or Home may be subject to eviction at the discretion of Owner.
- (f) No Resident Party is permitted to play in the Community's private streets or in the yards of other Community Residents, or to pass through other Community Residents' yards. Resident are responsible for the actions of Resident Parties who violate these Standards, and for damages caused by such Resident Party. No Resident Party is permitted to play on any Homesite other than Resident's own Homesite without the express permission of the other Homesite Resident. Climbing the trees in the Community is prohibited. No unauthorized activities are allowed in the Community's private streets.

5. **BACKGROUND CHECKS; INCOME VERIFICATION.** Prospective residents of the Community and any prospective Occupant will be approved, in writing, by the Owner based upon: (a) completion of an Application for Residency; (b) income verification, background, reference and criminal history check (collectively, "Applicant Reports"); and (c) an interview of all persons planning to occupy the Home or Homesite by the Community Manager. Subject to the availability of Homes or Homesites, such written approval will not be unreasonably withheld; however, the Owner does reserve the right to refuse admission to the Community to any person(s) deemed unsuitable to the Community in the Owner's sole discretion. Any misrepresentations, whether written or oral, made by a prospective resident as to information provided on the Application for Residency, registration card or credit application, or statements as to number, age, or identity of persons residing in the Home, or about pets, personal background, employment history, or past landlords, are deemed material and fraudulent and made to induce Owner to admit the prospective resident. Any such misrepresentation shall be deemed a conclusive breach of the Lease and shall void any approval of the request for occupancy.

6. **APPEARANCE AND CARE OF THE HOME AND THE HOMESITE.**

(a) **Prohibited Items.**

(i) Resident is not permitted to construct or cause to be constructed a fence (whether chain link, wooden, composition, electrical or otherwise) nor any form of pet restraining perimeter anywhere on the Homesite or elsewhere in the Community without Owner's prior written approval, which approval may be withheld in Owner's sole and absolute discretion. All approved and existing fences must be maintained in good, upright and secure condition. Resident hereby indemnifies and holds Owner's Related Parties harmless with respect to any Losses arising from the use of such equipment. No pools are permitted except temporary pools commonly referred to as "toddler", "kiddie" or "wading" pools. Toddler or kiddie pools must be emptied and stored in an out-of-the-way location following each and every use and may never be left unattended while containing any amount of water. Under no circumstances may clothes be hung on decks or stair rails.

(e) **Care of the Home and Homesite.** It shall be the responsibility of Resident to ensure that the Home and the Homesite are properly maintained, as determined by Owner in Owner's sole and absolute discretion.

(i) Resident must maintain the Home, Homesite, yard, and all other improvements located on the Homesite in compliance with all applicable Laws, the Lease, applicable Addendums, and these Standards. Resident is responsible for the maintenance and cleanliness of the Homesite. Resident is responsible for inspecting the home and making sure that all systems are properly functioning and there are no gas or water leaks, electrical problems, or other hazards that could adversely affect the health and safety of the Community. Owner and its employees or agents have no obligation to conduct any such inspections of a Resident's home. Bottles, cans, boxes, equipment, trash, tires, paint cans, appliances, indoor furniture, construction material, excess clutter or other debris of any matter shall not be stored outside or beneath the Home, deck, stoop, stairs, or patio. In the event any governmental agency shall impose a fine for failure to comply with these Standards, Resident

shall be responsible for the payment of the fine, and, in the event the Community Manager or Owner shall pay the fine, Resident shall promptly upon demand reimburse Owner in the form of Additional Rent.

- (ii) The Home and all of its component parts (including, without limitation, any steps, decks, carports, sheds and other improvements located on the Homesite) must be maintained and kept in good condition.
- (iii) The tow hitch must either be removed or covered by material matching the siding of the home. This will happen within 30 days of the Residents move in date.
- (iv) If, and only if, the Home is owned by Resident (as opposed to being owned by Owner or a third party), then the following shall apply:
 - (1) Resident must immediately repair any water leaks in or from pipes or fixtures in, on, or under the Home.
 - (2) Broken windows, peeling paint, dull exterior of the Home, or dirt, grime or mildew must be corrected or repaired.
 - (3) The exterior surfaces of the Home, including the eaves and trim, shall be kept free of discoloration. Once a year during the summer, all mobile homes will be required to have the outside of the home soft washed or pressure washed.
 - (4) Peeling, fading, rusted, or damaged exterior surfaces must be restored to like-new condition. Roofs will be maintained in excellent condition with any repairs to be of similar or improved material to the original building product. Tarps are not acceptable as a permanent or semi-permanent fix for roof leaks. This will be determined by the Community Manager.
 - (5) All homes must have skirting. Skirting must be painted a single approved color and maintained in good condition with no gaps, holes, cracks, tears, unsightly patches or rust.
 - (6) All exterior materials and colors used in upgrading must be approved in writing by the Community Manager prior to their use on the Home.
 - (7) As the Home's appearance ages, the Home shall be resurfaced, re-sided, re-roofed, re-skirted, lap-sided or replaced if deemed necessary or appropriate by Owner or by local city or county housing, health or code enforcement personnel.
 - (8) The materials used for repairs must be consistent with the types of materials used on new homes being brought into the Community.
 - (9) If Resident does not maintain, in the judgment of the Community Manager, the Home's skirting in a neat and good condition, Resident shall, at Resident's sole cost and expense, replace the skirting with approved skirting. If the present skirting is destroyed or damaged by windstorm, an act of God or nature, or any other means, replacement skirting must be of the approved type and in a color consistent or complimentary with the color of the Home.
 - (10) If the Home is destroyed by fire, windstorm, an act of God or nature, or any other means, Resident shall, at Resident's expense: (1) erect a fence or other barrier suitable to Owner around the Homesite as a protection against trespass; and (2) remove the salvage (the home or other personal property) from the Homesite the earlier of 15 days from the date of such event or from the date of written notice from Owner to Resident requesting removal, unless a longer period for removal is provided by applicable Law. Failure to remove the salvage within the timeframe established may result in Owner removing the salvage and billing Resident for actual costs incurred.
- (v) Resident shall keep all grass or lawn areas mowed, edged, weeded, and watered. Resident shall mow, trim, edge and weed along the side of the Home, walkways, driveways and streets before they become overgrown and unsightly. The object is to keep Resident's lawn and the Community looking neat. Lawn, grass, or sod destroyed or damaged by neglect, lack of water, vehicular traffic or by any other means or for any other reason, must be repaired or replaced at Resident's expense. If, in the judgment of the Community Manager, all or part of Resident's lawn needs to be re-sodded or re-seeded, Resident will receive written notice from the Community Manager to complete this repair at Resident's expense or face eviction. Each Resident is responsible for his/her respective plants and lawn. Plants, lawns and the Homesite are to be kept free of, among other things: weeds, underbrush, or debris and should not be permitted to become overgrown or unsightly. The Community Manager has sole discretion to determine when to notify Resident of his/her failure to comply with this provision. Unless caused by Owner or its contractors, any defects, depressions or holes in yard or grounds of the Homesite are the responsibility of Resident and shall be promptly reported in writing to Owner. Owner in its sole discretion may elect to repair the damage and Resident shall promptly upon demand reimburse Owner for such costs, if any, in the form of Additional Rent.
- (vi) The planting of trees, shrubbery, and flowers on the Homesites is encouraged. However, where holes deeper than 6" are required, to protect underground utilities and before digging, Resident(s) must first contact the Community Manager so he/she can determine whether the local utility company should be notified so it can come out to verify and mark the location of all underground utilities near the area to be planted. If the Community Manager determines that the local utility needs to be contacted, Resident must make such arrangements directly with the utility company and refrain from planting until after the utilities are marked. If Resident Parties fail to contact the local utility company after being directed by the Community Manager to do so, any damages to underground utilities caused by Resident Parties' plantings are the sole responsibility of the Resident Parties. If such damages are not promptly repaired upon written request of the Community Manager, Owner in its sole discretion may elect repair the damage and Resident shall promptly upon demand reimburse Owner for such costs, if any, in the form of Additional Rent.
- (vii) If directed by the Community Manager, sod must be replaced by Resident where planting is removed. Existing trees or shrubs must not be damaged or removed by Resident without prior written permission of the Community Manager. Resident is responsible for trimming and maintenance of all shrubs and bushes located on the Homesite. Owner will maintain trees, shrubs and any other horticultural amenities in Community Common Areas, as well as trim and/or remove trees that, in its sole discretion, are safety hazards located either in Common Areas or elsewhere in the Community. Resident is required to maintain the Homesite, including, but not limited to, yards, grass areas, shrubs, and garden areas, in a well-groomed manner at all times.

7. HOMESITE IMPROVEMENTS; MAINTENANCE BY RESIDENTS.

(a) Improvements.

- (i) Improvements to Homes Owned by Resident. Improvements to a Home owned by Resident are encouraged; however, any construction of or additions to a Home, and its location, including but not limited to porches, skirting, steps, awnings, utility buildings, air conditioners (window or central), concrete slabs, carports, stone or concrete walkways, and the like, will not be permitted unless Resident obtains prior written approval from the Community Manager, the improvements are properly installed and secured, and Resident obtains the necessary governmental approvals and permits where required.
- (ii) Improvements to Homes Owned by Owner. Residents shall not make alterations or improvements to any Home owned by Owner without the prior written consent of the Community Manager.
- (iii) Improvements to the Homesite. With the exception of plantings requiring holes no deeper than 6" referenced in these Standards, or potted plants, shrubs or trees, Residents shall not make other alterations or improvements to the Homesite

without the prior written consent of the Community Manager.

- (iv) **In General.** If electrical, mechanical or plumbing is upgraded for any reason, such upgraded service shall be at the sole expense of Resident. Written approval is necessary to protect the underground utilities, continuity of Community appearance, and the safety of the Community Residents. In addition to all other remedies available to Owner, the Community Manager may require Resident to remove any unapproved construction or addition at the expense of Resident. Before undertaking any digging, Resident must receive prior written approval from the Community Manager and contact the local utility company to verify and mark the location of all underground utilities. Damaged underground services must be repaired by a contractor designated by Owner, and the cost of such repairs will be assessed to the Resident who damaged any underground service. Each Resident is responsible for the submission of complete plans and/or permits for anticipated alterations showing compliance with these Standards and all applicable Laws, including, without limitation, county building and zoning codes, and other restrictions and requirements of record. Unless otherwise agreed in writing by the Community Manager, all improvements must be completed within 30 days.
- (b) **Paved Areas.** Where the Community has provided a dedicated, paved parking area for the Homesite, Resident is responsible for maintaining that area and for repairing, at Resident's own expense, any damages caused by any Resident Party during the Lease Term. This obligation includes any oil spill or leak. In the event Resident wishes to extend this paving for use of a vehicle, Resident may do so at his/her sole cost and expense and only after obtaining written permission from the Community Manager. All work must be performed to specifications approved by the Community Manager in writing in advance.
- (c) **Address Identifiers.** If not already in place, within 14 days of move-in, Resident shall affix to the front of the Home or Homesite identifying street numbers which are to be placed in an area consistent with those located on surrounding homes. Hand-written street numbers are not allowed.

The proposed shed must have an attached floor and the type and size of shed (steel, vinyl, wood, etc.), method of securing the shed to the ground or other base, and location, must be approved in writing by the Community Manager prior to installation. Sheds which are not in good condition will not be approved. All sheds must be set on a flat, level surface and securely anchored to the ground, concrete slab or other platform approved by the Community Manager. Wherever required, a permit must be obtained from the local city or county building department and from the Community Manager before installing the shed. Size, construction and installation of any shed must be in compliance with all applicable state and local Laws, if any.
- (e) **Undeveloped Homesites.** When undeveloped Homesites are available, a Resident who places a Home on these Homesites may be required by the Community Manager to install utilities, a driveway that matches the construction of other Homesites in the Community, and sod the entire Homesite.

8. VEHICLES.

- (a) Resident acknowledges that the Community's streets may be private and not public thoroughfares.
- (b) If off-street parking is provided in the Community, then Resident and all Resident Parties must park their vehicles on such off-street parking. Provided there is adequate room, and unless otherwise designated in writing by the Community Manager, Resident is permitted a total of 2 vehicles per Homesite. In the event there is not sufficient space, it is the responsibility of Resident to locate parking or storage outside the Community. All vehicles must have (i) liability insurance in the minimum amount required by applicable Law, and (ii) valid registration and license plates. Unless otherwise provided by the Lease, the street right-of-way may not be used for parking except for Guests, provided they do not remain more than 8 hours. No vehicle shall be parked in or on Common Areas, other than those areas specifically designated for parking, without prior written consent of the Community Manager. Unless expressly allowed by the Lease, parking on roadways within the Community or on lawns, swales, green areas or vacant Homesites or on undeveloped portions of the Community is strictly prohibited. Vehicles may not be parked on the grass at any time. Only vehicles licensed and used for daily personal transportation will be allowed to be parked in the Community. All other vehicles must be removed from the Community. The Community Manager will ban from the Community any vehicles that, in the Community Manager's sole judgment, interfere with the peace, privacy, and/or general welfare of Community Residents or with the appearance of the Community. Vehicles in violation of these Standards may be towed away without notice, or with such minimum notice as is required by applicable Law, at the registered owner's expense, payable to the towing service and not to Owner. Owner shall have no liability for any damage or inconvenience caused by the towing of vehicles parked in violation of these Standards. Residents are responsible for each Resident Party's vehicles complying with these Standards.
- (c) Other than basic cleaning, routine maintenance (adding washer fluid or engine oil, replacing wiper blades, etc.), or simple repairs (changing fuses or lightbulbs, jumpstarts, battery replacement, tire change to replace a flat, etc.), mechanical or other repair of vehicles, boats, or trailers is not permitted at a Homesite or elsewhere within the Community. Vehicles without current licenses, inspection stickers and tags, or which are inoperable or in a state of disrepair including, but not limited to, those which are rusted, dented, or unpainted or which are missing external parts, are not to be stored on any Homesite or in any other area within the Community. Washing of Resident's personal vehicles is permitted subject to any applicable Laws. No vehicle may be on jacks, blocks or ramps at any time other than for emergency tire changes or repairs lasting no longer than 3 hours. Due to the safety hazard it presents, any vehicle left on jacks, blocks or ramps is subject to immediate towing without notice, or with such minimum notice as may be required by applicable Law, at the vehicle owner's expense.
- (d) No truck larger than one-ton with a pickup bed will be permitted in the Community. All commercial trucks, buses, boats, off-road vehicles, campers, motor homes, step vans, trailers, or other large vehicles are not permitted in the Community unless stored in a designated area when and if such area is available and storage fees, if any, are paid.
- (e) Campers, motor homes, boats or delivery vehicles are permitted reasonable time for loading and unloading, but overnight stays are prohibited. No person may remain overnight or otherwise reside in the Community in any vehicle, camper, motor home or similar vehicle unless designated recreational vehicle (RV) parking is provided and applicable fees are paid.
- (f) ATV's, minibikes, dirt bikes, go-carts, or any motorized vehicles not properly licensed for use on public streets are prohibited in the Community. All permitted vehicles must have factory type quiet mufflers. No unlicensed off-road vehicles will be permitted within the Community.
- (g) Speed bumps, if installed, are a safety measure. Owner or the Community Manager is not responsible for any damage to property or personal injury resulting from contact with a speed bump.

Residents are required to formally apply to the Community Manager for permission to bring a pet into the Community before the pet is allowed to be brought into the Community. Owner reserves the right to make such decisions on a case-by-case basis. The Community Manager can at any time revoke approvals granted for pets based upon incomplete or inaccurate information, or a pet's behavior that is in violation of these Standards or the Pet Addendum, including but not limited any aggressive behavior, or bites or attacks on people or other pets.
- (b) Completion of the written application form by the Resident is required before approval of any pet will be considered. All information required on the application must be provided with complete detail as requested. Such items requested shall include, but are not limited to, the name of the pet, the breed, the adult size of the pet, the pet license tag number, current vaccination status, the name and phone of the veterinarian, the length of time that the pet has been with Resident, and any history of the pet as it pertains to barking, attacking, growling, biting, and other menacing behavior, or injuries or lawsuits resulting from its behavior. The application must be signed and dated by the Resident. Any false or incomplete information on the application, including that of the mix or breed of the pet, will be deemed absolute grounds for rejection of the pet, and shall constitute a violation of the Standards if the pet is not immediately removed.
- (c) When a written application is submitted, the Resident shall bring it to the Community Manager with proof that the pet has a valid and current pet license (if required by Law), and that the pet has received all required vaccinations. Resident shall also bring the pet to the Community Manager for a visual assessment. Resident is required to provide to the Community Manager with annual proof of a current pet license and vaccinations if required by local Law. It is the responsibility and obligation of Resident to bring copies of this documentation to the Community Manager within 15 days of the renewal date of any pet license and/or vaccination and inoculation requirement.

If Resident fails to comply with this Section, Owner may clean up the pet waste and impose upon Resident a separate waste removal fee of \$25 per pick-up which will be charged to the Resident as Additional Rent. Owner may also pursue all other remedies provided under the Lease, at law or in equity, for Residents failure to comply with this Section.
- (n) In the event that Resident breaches any of the terms and conditions of this Section (including, without limitation, the failure to deliver a Pet Addendum), and such breach continues for more than ten (10) days after written notice from Owner, then, in addition to any of Owner's other rights and remedies under the Lease, at law or in equity, Owner shall have the right to require removal of, and to remove, the pet from the Homesite and the Community (without affecting the Lease or Resident's responsibilities and obligations under the Lease).

Expenses of purging clogged sewer lines of such foreign objects shall be the burden of the Resident who occupies the Home or Homesite from which the foreign object originated.

- (c) The trash or waste removal company will pick up trash according to its own schedule and rules. Residents are responsible for cleaning up any scattered or remaining residue resulting from collection. It is Resident's responsibility to remove any trash the trash or waste removal company will not handle. Resident shall not dispose of hazardous waste in garbage containers or anywhere in the Community.

11. SATELLITE DISHES AND ANTENNAS.

- (a) Installation and placement of any outdoor reception device (satellite dish, antenna, or any other such device) ("ORD") **must be first approved in writing by Community Manager**, and must not exceed one meter (39") in diameter and must be installed in a manner that complies with all applicable Laws and manufacturer instructions. Such device must be installed on the Home or on the ground of the Homesite in a location which is not visible from the street, or if such placement sufficiently impairs the quality of reception, it must be installed on the Home in the most inconspicuous location possible and must be attractively landscaped and shielded from view to the greatest extent feasible. **If a satellite is not approved FIRST, it will have to be removed at tenant's expense immediately.**
- (b) ORD may not obstruct a driver's view of any street, driveway, sidewalk or intersection, nor may it be installed on or encroach upon any Common Area or restricted access area located within the Community.
